Hiring Manager
SCHOTT Glass (M) Sdn Bhd
Kulim, Kedah

Subject: Application for Manager, Smart Manufacturing

Dear Hiring Manager,

I am writing to express my interest in the Manager, Smart Manufacturing position at SCHOTT. I hold a Bachelor's Degree and have over 2–5 years of experience supporting project coordination, management reporting, and cross-functional operations, working closely with managers and multiple departments to ensure smooth execution of projects and daily operations.

In my current role, I support management decisions by tracking project progress, preparing reports and presentations, coordinating meetings, and following up action items across departments. I am experienced in KPI monitoring, administrative improvements, and working with shared service teams such as HR, Finance, Purchasing, and Logistics to support operational efficiency and cost optimization. I also handle scheduling, meeting minutes, documentation, and coordination for internal and external stakeholders.

I am highly organized, detail-oriented, and comfortable managing multiple priorities in a fast-paced manufacturing environment. With strong communication skills in English, solid computer skills (Excel, presentations, and reporting tools), and basic project management knowledge, I am confident in my ability to support the Site Manager in achieving plant KPIs and ensuring smooth site operations.

I would welcome the opportunity to further discuss how my skills and experience can contribute to SCHOTT Kulim's smart manufacturing and operational excellence initiatives.

Sincerely,
Nabihah Taquddin Azmy
