Hiring Manager
Fulkrum Interactive Technology Sdn Bhd
Bertam, Kepala Batas, Penang

Subject: Application for Software Engineer/Developer

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer/Developer position at Fulkrum Interactive Technology Sdn Bhd. With over **5 years of experience** in software engineering, web development, and project coordination, I bring a strong technical foundation and a proven ability to deliver high-quality solutions on time.

In my current role as **Assistant Project Manager cum Software Engineer** at Ingenious Technology Solutions, I have developed and maintained web applications using frameworks such as Laravel and CodeIgniter, alongside front-end technologies including **HTML, CSS, PHP, JavaScript, and React**. I am also experienced in database design with MySQL and have integrated various APIs to support project functionalities. My work in Agile environments, including sprint planning, version control using Git, and collaboration with cross-functional teams, has honed my problem-solving skills and ability to meet tight deadlines.

Some highlights of my experience include:

- Designing, coding, testing, and documenting web applications to ensure functionality and maintainability.
- Leading project coordination while maintaining clear communication with clients and stakeholders.
- Developing Node.js and Express.js applications, alongside AWS S3 integration, expanding the functionality and scalability of our systems.

I am enthusiastic about the opportunity to contribute my skills to your team and help build robust, efficient, and user-friendly applications. I am confident that my technical proficiency, combined with my experience in project management and collaborative work environments, makes me a strong candidate for this role.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to the success of your company.

Sincerely,

Nabihah Taquddin Azmy
