Hiring Manager
SYNTIANT MALAYSIA MANUFACTURING SDN. BHD.

Subject: Application for Assistant Supervisor Position

Dear Hiring Manager,

I am writing to express my strong interest in the **Assistant Supervisor** position at Syntiant Malaysia Manufacturing Sdn. Bhd. Holding a Bachelor's Degree in Software Engineering from Universiti Putra Malaysia (UPM) and over 5 years of professional experience in project management, operational workflow tracking, cross-functional team coordination, and process compliance, I am eager to support your daily production operations in Perai.

Syntiant's leadership in Edge AI hardware strongly resonates with my technical background, which includes practical familiarization with Edge AI frameworks (Edge Impulse) alongside software engineering principles. My professional experience translates directly to the core responsibilities of an Assistant Supervisor in a manufacturing setting:

- **Production Scheduling & Manpower Allocation:** Over 5 years of experience serving as Assistant Project Manager and Person-in-Charge (PIC), tracking operational deliverables, managing team schedules, and coordinating shift workflow transitions.
- **SOP Compliance & Operational Uptime:** Proven track record in monitoring system health, enforcing Standard Operating Procedures (SOPs), managing SLA resolution workflows, and conducting structured testing to maintain continuous operational quality.
- **Continuous Improvement & Problem Solving:** Skilled in process mapping, identifying operational bottlenecks, evaluating workflow changes, and driving team efficiency.
- **Team Leadership & Communication:** Experienced in bridging communications between floor operators, technical teams, external vendors, and senior management to ensure clear shift handovers and output target achievement.

I offer full local availability for shift schedules and a disciplined, analytical approach to maintaining high production standards at Syntiant.

Thank you for your time and consideration.

Sincerely,
Nabihah Taquddin Azmy
