Nabihah Taquddin Azmy

Well Organized | Friendly | Committed

Penang, Malaysia

Summary
A highly motivated and hardworking individual with 4+ years of experience as a Software Engineer. To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately. Through my time in my previous and current company, I have gained further hands-on experience in industry-standard development.

Previously, my final year project's title was Two-Factor Authentication to Replace File or Document Password, in collaboration with Silverstreet Malaysia Sdn Bhd. For my internship,I worked as a programmer trainee at Ipoh City Council (MBI), Malaysia with the latest web application project, Meeting SchedulingSystem using Ajax.

Before starting my career life, I join a global volunteering programme in Bursa, Türkiye. This volunteer project emphasizes Sustainable Development Goal (SDG) 4: Quality Education which needs me to be an English teacher in a high school in Türkiye and at the same time raise multicultural awareness of Turkish Youth.
