Nabihah Taquddin Azmy

Shift Lead | IT Operations & Project Coordination

Penang, Malaysia | nabihahtaqudin@gmail.com | +60135198421

Professional Summary

IT professional with **5+ years of experience** in software engineering, project coordination, and operational management, seeking a **Shift Lead** role. Proven track record as **single point of contact (PIC)** for multi-module systems, managing incident coordination, shift-like operations, handovers, and stakeholder communication under pressure.

Hands-on experience with backend systems (**CodeIgniter, Node.js, Express.js**) and cloud storage (**AWS S3**) provides strong technical awareness to support operational decision-making. Skilled in **team coordination, process adherence, and continuous improvement**, ready to contribute to reliable, efficient, and safe data center operations.

Core Skills

Leadership & Supervision

- Lead teams during operational shifts (project/technical environment)
- Provide guidance, support, and performance feedback
- Coordinate vendors and internal teams for issue resolution
- Prioritize tasks and urgent incidents efficiently

Operational Oversight

- Ensure systems and processes run smoothly during operations
- Monitor critical services and address potential issues proactively
- Maintain operational continuity in high-pressure environments

Shift Handover & Documentation

- Prepare detailed reports, meeting minutes, and handover documentation
- Track incidents, actions, and progress for accountability
- Implement structured workflows for smooth shift transitions

Technical Awareness

- Backend systems and APIs (CodeIgniter, Node.js, Express.js)
- Cloud storage integration (AWS S3)
- Troubleshooting and escalation support for system issues

Process & Continuous Improvement

- Identify and implement operational efficiency improvements
- Develop structured test cases and operational checklists
- Maintain adherence to SOPs and standard processes

Tools

- JIRA | Microsoft Project | Microsoft Office

Professional Experience

Ingenious Technology Solutions Sdn Bhd
Assistant Project Manager / Software Engineer
Dec 2022 – Present | Penang, Malaysia

- Acted as **single point of contact (PIC)** for multi-module systems, ensuring operational continuity and timely resolution of issues
- Coordinated and prioritized **incident handling** during post-implementation and warranty periods
- Maintained detailed **shift-like handover documentation**, progress reports, and evidence logs
- Communicated with clients, internal teams, and vendors for escalations and issue resolution
- Monitored project milestones using **Microsoft Project** and prepared **S-Curve reports**
- Supported testing and verification of critical modules

Airei Sdn Bhd
Software Engineer
Apr 2020 – Nov 2022 | Cyberjaya, Malaysia

- Developed and maintained web applications using **CodeIgniter** in Agile Scrum environment
- Coordinated with clients to troubleshoot issues and ensure system availability
- Documented system workflows and maintained testing and operational records
- Supported operations by analyzing issues and assisting in resolution

---

Recent Technical Projects

- Developed backend APIs using **Node.js and Express.js**
- Integrated **AWS S3** for file storage and access
- Implemented error handling, request validation, and basic system monitoring

---

Additional Leadership & Operational Experience

- **Global Volunteer – AIESEC, Türkiye**: Team coordination and educational program delivery
- **F&B Manager – GengMosha UPM**: Staff supervision, operational readiness, and process management

---

Education

Bachelor's Degree, Software Engineering
Universiti Putra Malaysia | 2015 – 2020
