NABIHAH BINTI TAQUDDIN AZMY

Software Engineer | Full-Stack & IoT Application Developer

Perai, Penang | +60135198421 | nabihahtaquddin@gmail.com | linkedin.com/in/nabihah-taquddin-azmy

PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 5 years of experience in full-stack web application development, SDLC execution, system analysis, and software quality assurance. Proven expertise in building modern web architectures (Node.js, React, Express, JavaScript, MySQL) and designing backend workflows. Passionate about IR 4.0 technologies, with hands-on learning in Edge Impulse for embedded Machine Learning and IoT deployment. Adaptable agile practitioner skilled in translating product requirements into reliable software, troubleshooting production bugs, and keeping developer documentation up to standard.

CORE COMPETENCIES & TECH STACK

- **Programming & Stack**: JavaScript, C/C++, Python, Node.js, Express.js, NestJS, React, CodeIgniter
- **Databases & Cloud**: MySQL, SQL, AWS S3, Postman
- **Embedded & IoT / IR 4.0**: Edge Impulse (TinyML / Edge AI), Embedded Systems Basics
- **Software Engineering**: Full-Stack App Development, RESTful APIs, Agile/SDLC Methodologies, Bug Troubleshooting, Technical Documentation
- **QA & Support**: User Acceptance Testing (UAT), Test Case Authoring, Level 1/2 Support, SLA Adherence

PROFESSIONAL EXPERIENCE

ASSISTANT PROJECT MANAGER CUM SOFTWARE ENGINEER

Ingenious Technology Solutions Sdn. Bhd., Perai, Penang | Dec 2022 - Present

- **Software Development & Custom Tools**: Independently designed, built, and deployed a production-ready Ticketing Support System utilizing Node.js/Express with SMTP notifications, user role management, and incident workflows.
- **System Architecture & Data Management**: Monitored enterprise application health and coordinated a 1TB MySQL database capacity expansion to safeguard platform uptime and performance.
- **Full SDLC & Requirements Analysis**: Acted as primary technical PIC for a 14-module enterprise system. Gathered user requirements, authored Functional Specification

Documentation (FSD), and translated business processes into actionable development specs.

- **Testing & Deployment**: Executed UAT cycles, authored comprehensive test scripts, validated bug fixes in staging environments, and maintained detailed developer documentation.
- Edge ML model development using Edge Impulse for sensor data processing.

SOFTWARE ENGINEER

Airei Sdn. Bhd., Cyberjaya, Selangor | Apr 2020 - Nov 2022

- **Application Development & Support**: Participated in full SDLC execution for web applications, maintaining code quality and resolving production bugs in alignment with strict client SLAs.
- **Testing & Documentation**: Tested new software releases against product requirements and authored functional/technical documentation for end-users and developers.

STUDENT INTERN - SOFTWARE DEVELOPER

Majlis Bandaraya Ipoh, Perak | Feb 2019 - Jul 2019

- Designed and developed a web-based Meeting Scheduling System using JavaScript/Ajax and relational databases to streamline internal administrative workflows.

EDUCATION

BACHELOR'S DEGREE IN SOFTWARE ENGINEERING

Universiti Putra Malaysia (UPM) | 2015 - 2020

- Key Projects: Two-Factor Authentication (2FA) Security Implementation
