NABIHAH BINTI TAQUDDIN AZMY

Customer Program Management Specialist | IT Project & Operations Lead

Perai, Penang, Malaysia | +60135198421 | nabihahtaqudin@gmail.com | linkedin.com/in/nabihah-taquddin-azmy

PROFESSIONAL SUMMARY

Results-driven Project Management and Operations Specialist with over 5 years of experience leading end-to-end software project delivery, cross-functional team coordination, and enterprise client account management. Proven track record as the primary Person-in-Charge (PIC) for a 14-module enterprise platform, managing day-to-day client communications, schedule performance, Change Request (CR) evaluations, and Quality Assurance (UAT) cycles. Expert at bridging technical execution with business strategy, ensuring on-time project milestones, and maintaining high client satisfaction and retention.

CORE COMPETENCIES

- **Program & Project Management**: End-to-End Project Lifecycle, Milestone & Schedule Tracking, Issue & Risk Mitigation, Change Request (CR) Evaluation, Scope Control, SDLC/Agile Methodologies
- **Account & Stakeholder Management**: Single Point of Contact (PIC), Cross-Functional Team Leadership, Client Onboarding & Communication, Vendor & Partner Coordination, SLA Adherence
- **Operations & Quality Assurance**: User Acceptance Testing (UAT), Test Script Development, Requirement Gathering, Functional Specification Documentation (FSD), Process Workflow Mapping
- **Tools & Technical Aptitude**: JIRA, MS Office (Excel, Word, PowerPoint, Outlook), Postman, Database Management (MySQL), RESTful APIs, Process Automation

---

PROFESSIONAL EXPERIENCE

ASSISTANT PROJECT MANAGER CUM SOFTWARE ENGINEER

Ingenious Technology Solutions Sdn. Bhd., Perai, Penang | Dec 2022 - Present

- **Enterprise Account & Program Oversight**: Served as the primary Single Point of Contact (PIC) for a complex 14-module enterprise platform (MECHIS), leading day-to-day operations, tracking project milestones, and managing stakeholder communications.
- **Cross-Functional Coordination**: Coordinated seamlessly between internal technical developers, external vendors, system testers, and management to deliver ICT support and release updates within strict timeframes.
- **Requirement Gathering & Scope Management**: Engaged directly with clients to analyze operational workflows, translated business requirements into detailed Functional Specification Documentation (FSD), and evaluated Change Requests (CRs) to manage project scope.

- **Quality Assurance & Client Onboarding**: Directed User Acceptance Testing (UAT) phases, authored test scripts, validated bug fixes in staging environments, and conducted client training workshops to maximize user adoption and platform health.
- **Operations & Infrastructure Upgrades**: Monitored system availability, managed incident resolution, and coordinated a 1TB database capacity expansion to safeguard operational uptime and prevent service disruptions.
- **Internal Process Optimization**: Designed and deployed a production-ready Ticketing Support System featuring user role access, automated SMTP notifications, and standardized incident resolution workflows.

SOFTWARE ENGINEER / SYSTEMS ANALYST

Airei Sdn. Bhd., Cyberjaya, Selangor | Apr 2020 - Nov 2022

- **Client SLA & Incident Management**: Managed Level 1 and Level 2 application support, troubleshooting software incidents and tracking resolution timelines to ensure strict adherence to client SLAs.
- **Project Execution & Documentation**: Participated in full SDLC execution, gathered system specifications, conducted software testing against client requirements, and authored functional documentation for end-users.

GLOBAL VOLUNTEER EXCHANGE PARTICIPANT

AIESEC, Bursa, Turkiye | Jan 2020 - Mar 2020

- Facilitated structured educational workshops, managed cross-cultural team activities, and coordinated cross-functional stakeholder schedules.

MANAGER OF F&B OPERATIONS

Geng Mosha UPM, Serdang, Selangor | Sept 2017 - Dec 2019

- Managed daily workflow logistics, team scheduling, inventory tracking, and operational problem-solving in a fast-paced environment.

STUDENT INTERN - SOFTWARE DEVELOPER

Majlis Bandaraya Ipoh, Perak | Feb 2019 - Jul 2019

- Designed and deployed a web-based Meeting Scheduling System to streamline administrative workflows and dynamic internal scheduling.

EDUCATION

BACHELOR'S DEGREE IN SOFTWARE ENGINEERING

Universiti Putra Malaysia (UPM) | 2015 - 2020

• Final Year Project: Two-Factor Authentication (2FA) Security Implementation for Internal Document Management Systems.
